How do I get my p2 username and password?

Paola Popesso - 2022-04-20 - Comments (0) - How to prepare your observations (Phase 2)

How do I get my p2 username and password?

The p2 username and password correspond to the ESO User Portal username and password of the Principal Investigator (PI), or of the Phase 2 Delegate (in case the PI has delegated Phase 2 access to another User Portal registrant). If you as PI of a scheduled run, or as a Phase 2 Delegate, have forgotten your User Portal username and/or password please use the appropriate corresponding link(s) on the User Portal login page.

If you have no accepted programs as PI but wish to learn the use of p2, you can use the p2 demo server set up for this purpose.
