How do I get my p2 username and password?

Paola Popesso - 2022-04-20 - Comments (0) - How to prepare your observations (Phase 2)

How do I get my p2 username and password?

The p2 username and password correspond to the ESO User Portal username and password of the Principal Investigator (PI), or of the Phase 2 Delegate (in case the PI has delegated Phase 2 access to another User Portal registrant). If you as PI of a scheduled run, or as a Phase 2 Delegate, have forgotten your User Portal username and/or password please use the appropriate corresponding link(s) on the <u>User Portal login page</u>.

If you have no accepted programs as PI but wish to learn the use of p2, you can use the <u>p2 demo</u> server set up for this purpose.
